

Dear Parent

This message is being sent to you with heavy heart that schools are going through extreme financial conditions. For last more than seven months all schools have tried their level best to keep teaching learning process going on and spent lot of reserved funds in updating the technology to make the process smooth for all children Now due to less fees received from parents all are facing severe financial crisis. Schools have tried to fight this situation in the best of their capacities but now situation is extremely difficult to handle.

Hence, it is the collective decision from Forum Of Private School Of Rajasthan to suspend online classes and close the schools from 5 Nov, 2020 indefinitely till some concrete judgement from the authorities is received.
